## TIRE PURCHASES AT OPEN TESTING SESSIONS

Tires may be purchased at either testing session. At the end of the night of April 22, no driver may have more than six (6) tires logged into their tire management program account.

Drivers/teams may purchase tires for practice; these tires will not be logged into the system and may not be used for racing other than as allowed in the published tire program rules. Practice tires later designated as race tires by a team MUST be logged into the driver's tire management program account.
